

Dynamic Sophistication

2026 ECLIPSE CROSS

SOPHISTICATION AT EVERY ANGLE

The bold Dynamic Shield design of the Eclipse Cross conveys more than just confidence and protection; it tells a story of sleek elegance and dynamism, with the promise of an uncompromised driving experience.

But don't let this urban graceful style fool you, as the Eclipse Cross is a Sport Utility Vehicle in every sense. 18" alloy wheels, impressive cargo capacity, sporty rear hatch, and up-to 2,000 lbs of towing capacity* provide the rugged dependability, utility and capability that calls out to the weekend warrior in all of us.

| TWIN OVAL LED LIGHT CLUSTER

| 18" ALLOY WHEELS

| HEATED & POWER-FOLDING SIDE-VIEW MIRRORS

| POWER PANORAMIC SUNROOF

| HEATED FRONT AND REAR SEATS

| HEATED STEERING WHEEL

IT'S ALL IN THE DETAILS

The Eclipse Cross features a stylish cockpit-like interior that has been meticulously designed with driver and occupant comfort in mind. The contemporary and chic craftsmanship on display will stimulate your senses, inviting you to enjoy a more refined and exhilarating experience.

WITH AMPLE CARGO SPACE

THE CROSSROADS OF POWER AND EFFICIENCY

ENGINEERED FOR THE ADVENTUROUS

Every Eclipse Cross features our legendary Super All-Wheel Control (S-AWC), the world's most advanced AWD system, designed to tackle the path less travelled. Three selectable drive modes available at your fingertip provide the fun-to-drive dynamics you'll need to fulfill your active lifestyle, regardless of road or weather conditions:

NORMAL offers well-balanced 4-wheel dynamics, resulting in enhanced fuel efficiency, traction, high-speed stability and predictable handling.

SNOW provides improved traction and stability specifically for snow-covered or slippery roads.

GRAVEL delivers maximum traction on coarser roads or whenever you might find yourself stuck in a rough patch of off-road terrain.

The invigorating performance of the 1.5 L Direct-Injection Turbocharged 4-Cylinder Engine and Continuously Variable Transmission with available paddle shifters puts you in control of the power and torque you need, while minimizing your trips to the gas station.

FOR YOUR INFOTAINMENT

The 8" Smartphone Link Display Audio system fully supports Android Auto™ and Apple CarPlay, making it intuitive and easy to access apps, listen to music, make calls and send messages safely.

Enjoy your favourite ad-free music, sports, news, comedy, celebrity-hosted talk shows, and more with SiriusXM® Satellite Radio with 3 months of complimentary service.

Conveniently located on top of the dashboard in your direct line of sight, the available Head-Up Display projects your speed and other relevant safety and vehicle information, such as Forward Collision Mitigation and Adaptive Cruise Control data, so you can keep your eyes on the road ahead.

Whatever your music genre preference – from Hip Hop to Rock to Classical, and everything in between – the available Mitsubishi Power Sound System with 8 strategically placed speakers has been highly calibrated to deliver a crisp, balanced and pristine sound quality that resonates deep within.

PEACE OF MIND THROUGH SAFETY

Every Eclipse Cross is loaded with a number of standard passive and active safety features that help keep you in control and prevent potential collisions before they happen, including Forward Collision Mitigation[†] which will sound a warning and automatically slow your vehicle down if there is a risk of impact with a vehicle or pedestrian ahead. Other key standard safety features include:

REINFORCED IMPACT SAFETY EVOLUTION (RISE) BODY CONSTRUCTION

7 SRS AIRBAGS, INCLUDING A DRIVER'S KNEE AIRBAG

REARVIEW CAMERA

ANTI-LOCK BRAKING SYSTEM

ACTIVE STABILITY CONTROL

TRACTION CONTROL LOGIC

HILL START ASSIST

The Eclipse Cross also offers an array of available driver-assistance technologies¹ to help ensure you travel safely, wherever your ambitions take you:

Lane Departure Warning (LDW)¹

Uses an onboard camera to monitor lane position in front of the vehicle, providing audible and visual alerts if it detects your vehicle leaving the lane unintentionally.

Blind Spot Warning (BSW)¹

Alerts you when a vehicle is in or approaching your blind spot. When a vehicle in the next lane is travelling at the same speed or faster in the detection areas, a warning light illuminates on the corresponding side mirror. If you switch the turn signal on, the warning light on the corresponding mirror will blink and the system will beep three times to alert you that it is unsafe to change lanes.

Rear Cross Traffic Alert (RCTA)¹

Detects a vehicle approaching from the side while you're backing up. It alerts you with flashing warning lights on both side mirrors, a buzzer that sounds in the cabin and a warning message that appears in the instrument cluster.

Multi View Camera System (MVCS)¹

Series of cameras create a birds-eye view of the surroundings, and a wide-angle view which results in increased convenience and safety when reversing and parallel parking.

Adaptive Cruise Control (ACC)¹

Uses radar to automatically adjust the vehicle's cruising speed to maintain a set distance between you and the vehicle in front.

Auto High Beams (AHB)¹

Detects light levels of oncoming vehicles and automatically switches the headlights between low and high beams – a welcome safety feature when driving on dimly-lit roads.

DEPENDABILITY YOU CAN COUNT ON

AT MITSUBISHI MOTORS, WE'RE SO CONFIDENT IN THE QUALITY, RELIABILITY AND DURABILITY OF THE VEHICLES WE BUILD, THAT WE BACK THEM WITH SOME OF THE MOST COMPREHENSIVE WARRANTIES AVAILABLE.
