MITSUBISHI MOTORS
Drive your Ambition

OUTLANDER

The Journey Begins with Family

Life is all about capturing moments with your loved ones. The Outlander has been designed and engineered to help you pursue and capture these special moments for many years to come.

Loaded with advanced safety features, versatile passenger and cargo space, premium comfort and convenience innovations, a turbocharged mild-hybrid engine, and our world-renowned Super All-Wheel Control system, the Outlander ensures you and your family can experience those moments wherever the road may take you.

Designed to Command Every Adventure

Since its launch, the refined and sophisticated styling of the Outlander makes a statement: you have arrived. The wide and stable posture, Mitsubishi Motors' signature Dynamic Shield grille design, standard High-Grade LED Headlights, available 20" Two-Tone Alloy Wheels, horizontally sculpted body, and bold front and rear skid plate styling also leave an undeniable impression of surefooted capability.

Elegance You'll Never Want to Leave

You'll find excuses to take the longest route possible, so you can enjoy more time experiencing the Outlander's exquisite craftsmanship, rich materials and premium comfort and connectivity features that make the refined interior your own personal oasis.

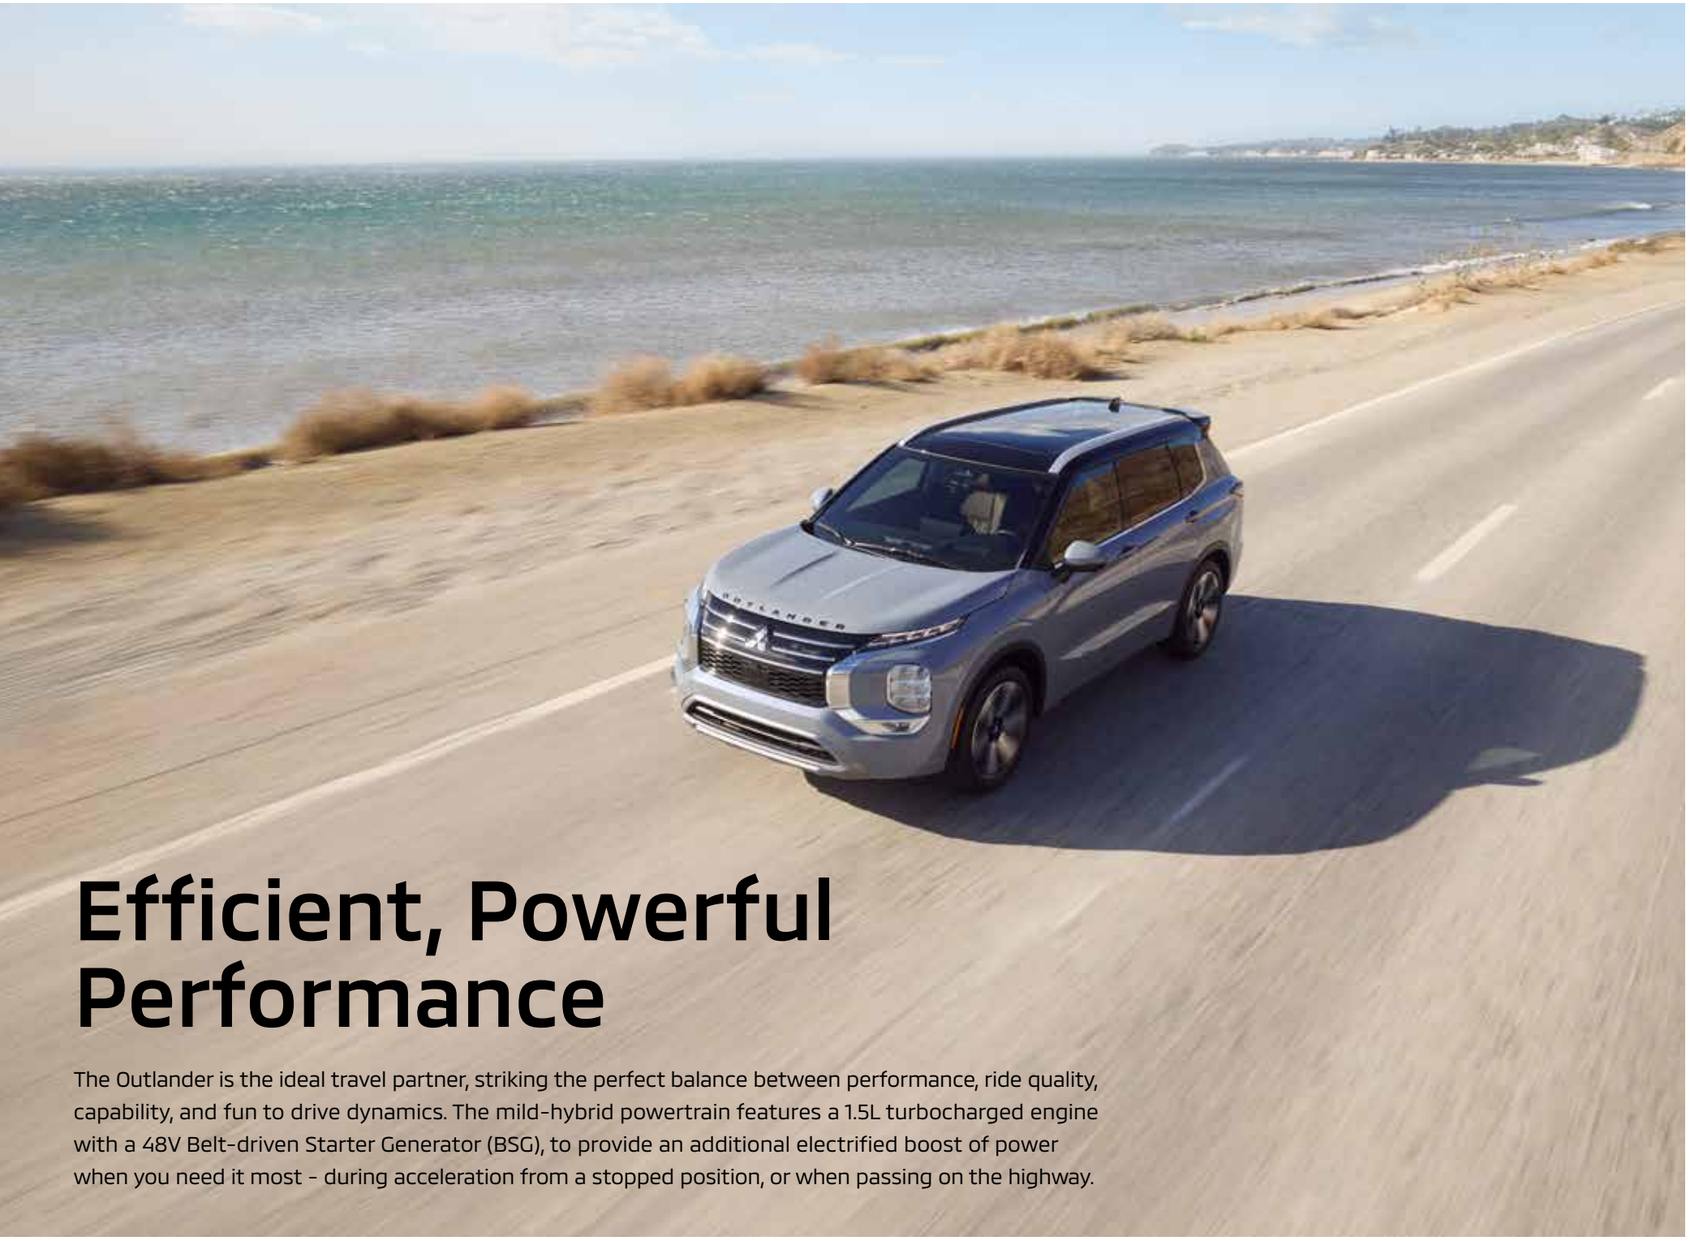

Ventilated Seats
The available Leather-Appointed Ventilated Front Seats circulate air through the bottom and seatback cushions, providing a much more comfortable ride on hot summer days.

Heated Front Seats, Available Heated 2nd Row Seats & Heated Steering Wheel
The Outlander's standard Heated Front Seats, available Heated 2nd Row Seats and Heated Steering Wheel keep occupants comfortable and warm, from cooler fall days to blustery winter weather.

The standard, wide 12.3" Smartphone-link Display Audio system features an intuitive touchscreen, crisp graphics, and all the latest innovations in infotainment connectivity including Wireless Android Auto™[1], Wireless Apple CarPlay[2] and Bluetooth®. With a complimentary 3-month SiriusXM or available SiriusXM 360L[§] trial, you can stream your favourite ad-free music, sports, news, comedy and more with access to exclusive content and the most innovative features ever offered in a vehicle.

Efficient, Powerful Performance

The Outlander is the ideal travel partner, striking the perfect balance between performance, ride quality, capability, and fun to drive dynamics. The mild-hybrid powertrain features a 1.5L turbocharged engine with a 48V Belt-driven Starter Generator (BSG), to provide an additional electrified boost of power when you need it most - during acceleration from a stopped position, or when passing on the highway.

Auto Stop & Go
When the Outlander comes to a complete stop, the engine will automatically shut off. Once the brake pedal is released, the engine will restart, instantaneously and quietly, minimizing engine idle and enhancing fuel efficiency.

The Outlander's suspension has been highly tuned to ensure smooth cornering in the city and a more confident and comfortable ride, including on rougher road surfaces.

Super All-Wheel Control
Building off a legacy of off-road rally and endurance racing excellence, Mitsubishi Motors' patented Super All-Wheel Control system leverages a suite of innovative technologies to deliver a superior driving experience, regardless of road or weather conditions.

S-AWC
Super All Wheel Control

By seamlessly managing speed and braking force at each individual wheel to maximize traction, the Super All-Wheel Control system provides enhanced safety and peace of mind through increased stability, responsive handling and the confidence that you are in total control of your driving.

4WD 4WD – directs torque between the front and rear axles when wheel slippage is detected, to enhance overall traction. This is especially useful when accelerating from a stop on slippery surfaces, or climbing a hill covered in ice or snow.

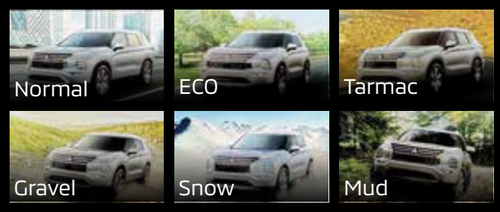

ASC Active Stability Control (ASC) – works with Outlander's ABS to help counteract slipping or loss of control in adverse driving conditions and during emergency maneuvers by constantly monitoring available traction, keeping the vehicle moving in the intended direction.

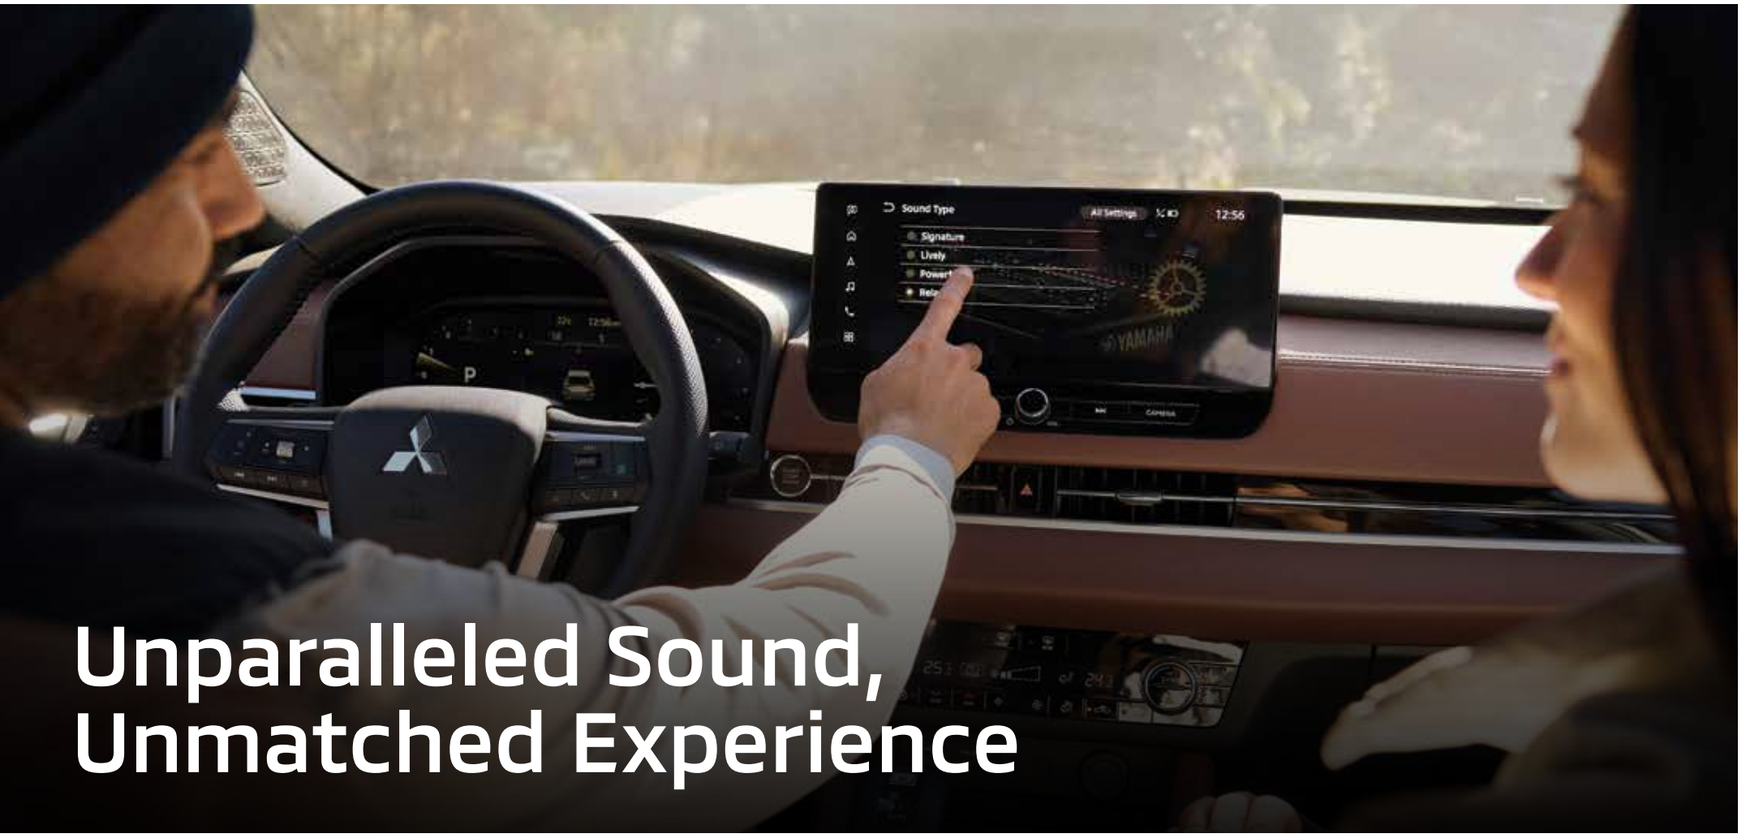

ABS Anti-Lock Braking System (ABS) – prevents the wheels from locking up under heavy braking, or while braking on slippery road surfaces, allowing them to continue turning, providing greater control while stopping in an emergency.

AYC Active Yaw Control (AYC) – a torque-vectoring technology that manages the left-to-right driving and brake forces by applying the braking system at each individual wheel as required. This allows the vehicle to continue comfortably and true to the driver's intended path on slippery curves, icy roads and uneven terrain.

Put yourself in control with SIX driver selectable modes accessible at the turn of a dial.

Unparalleled Sound, Unmatched Experience

MITSUBISHI MOTORS × YAMAHA

The Dynamic Sound Yamaha audio systems have been jointly crafted by Mitsubishi Motors engineers and world-renowned Yamaha Sound Meisters specifically for the Outlander, to deliver a precision-crafted sound space within a precision-crafted vehicle.

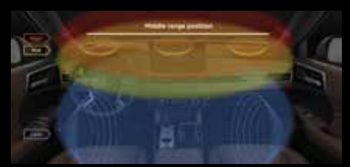

Dynamic Sound YAMAHA Ultimate / Premium

The Dynamic Sound Yamaha Premium system features 8 high-performance speakers, including custom-designed combination rear tweeter/woofers, to provide an acoustic experience that redefines the relationship between music and driving.

The Dynamic Sound Yamaha Ultimate system features a 12-speaker system that includes mid-range and woofer speakers utilizing the ZYLON® technology of Yamaha's premium flagship NS-5000 home speaker system.

The high-fidelity audio experience is based on acoustic technologies developed by Yamaha for concert halls and then optimized for the Outlander to provide a live performance quality with crisp, immersive sound that ignites the spirit for adventure.

Dynamic Sound Yamaha Ultimate system shown.

Dynamic Sound Yamaha Ultimate has been optimally tuned for each type of audio output and for each seating position within the vehicle. The system can also automatically adjust volume and equalization based on external factors that affect sound quality, including speed, rain and air conditioning noise.

Ideal Sound Experience:

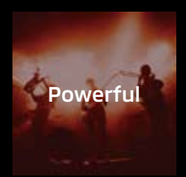

Dynamic Sound Yamaha Ultimate includes four pre-set sound modes that have been fine-tuned to accentuate your favourite music genre.

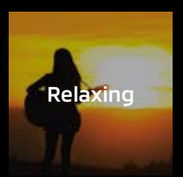

Brings out the emotive tones and textures of vocals and complex instrumentation of Jazz, Blues, and Classic tunes.

Ideal for energetic dance and pop music beats and crisp vocals.

Feel the power of rock or hip hop music coursing through you, elevating your mood and the drive.

Enjoy a pleasant conversation and appreciate the scenery complemented with background music.

Room for Everything, Memories Included

With standard seating for up-to 7 passengers, plenty of available cargo space, and a towing capacity of up-to 907 kg (2,000 lbs.)*, the Outlander is always ready to tackle your family adventures—whether it's a trip to the grocery store, or an exhilarating weekend getaway.

Storage
Front seat cupholders are conveniently located beside the transmission shifter, with each cup holder thoughtfully tilted away from each other, so both the driver and passenger can easily access their extra-large morning coffees. The large centre armrest opens up to keep items such as smartphones and other valuables away from prying eyes. There is also an illuminated USB-C port inside the armrest, plus two additional illuminated USB-C ports on the rear of the armrest for 2nd row passengers, to keep devices such as tablets and handheld gaming consoles fully charged.

Hands-Free Power Liftgate
The available foot-activated Hands-Free Power Liftgate is height adjustable, allowing for convenient and easy access to the cargo area, without having to put anything down.

Adaptable Seating Configurations
With up to 1,875L (66.2 cu.ft) of cargo space and the flexibility to seat up-to 7-passengers, the Outlander is the ideal lifestyle travel partner: carpool your kid's teammates to their sporting events, or load up everything you'll need for your next do-it-yourself project or a perfect weekend getaway, including lumber, garden mulch, bikes, luggage, or golf clubs.

A Wide Range of Features to Keep You Connected

Innovative and purposeful innovations abound, ensuring that you stay connected—to family, friends, and the road.

Available 10.8" Head Up Display
Projects important information on the windshield, allowing you to keep your eyes on the road ahead.

Available Frameless Digital Rearview Mirror
Leverages camera technology to help drivers to see what's behind them, even if visibility is impacted when the cargo area is packed to the roof.

Available Smartphone Wireless Charger
Located at the front of the centre console and angled for easy access.

Available 12.3" Full Digital Driver Display
Provides engaging graphics that display customizable information like speed, navigation, S-AWC settings and more.

Who Says Adventure Can't Be Comfortable?

Available 3-Zone Automatic Climate Control
System provides personalized comfort for the driver, front passenger, and 2nd row passengers.

Available Rear Door Pull-Up Sunshades
Offer protection for 2nd row passengers on sunny days, especially when the passengers are sleeping children.

Available Key-Linked Memory Settings
The Memory Power Driver's Seat, exterior mirrors, and Smartphone-link Display Audio profile is linked to each FAST-Key, allowing for two individual driver's settings.

Available Heated, Power-Folding Side-View Mirrors with Reverse Auto-Tilt
Automatically tilt down for enhanced visibility to help detect objects, lane markings or curbs while parking, and fold when the vehicle is locked to protect them in tight parking spaces.

Mitsubishi Connect - Remote Services
Use your Smartphone to start your Outlander to pre-heat or pre-cool the cabin; defrost the windshield; activate the Heated Seats and Heated Steering Wheel; lock or unlock your doors; find your vehicle in a parking lot; or check your vehicle's condition, fuel information and warnings—anytime and anywhere.

Mitsubishi Connect - Safeguard Services
Connect with the Mitsubishi Motors call centre instantly in emergency situations—automatically when in a collision, or by pressing the SOS button; or arrange for roadside assistance when you need it. No matter the situation, the Outlander has got you covered!

Mitsubishi Connect also offers a suite of modern Navigation Services powered by Google, to help you plan your perfect route, including Google Satellite & Street Views and seamless map transition between your phone and the Smartphone-link Display Audio system and back.

The Road Ahead, Together with Family

Your family's safety is your #1 priority. With numerous standard safety innovations, including 11 SRS airbags and RISE body construction, the Outlander provides top-class protection and peace of mind knowing that your family will be safe and sound.

The Confidence to Keep Moving

The Outlander is packed with an abundance of available advanced driver assistance systems, including MI-PILOT Assist, which in combination with autonomous driving features helps keep the vehicle centered in the lane of travel and works to reduce fatigue on long trips.
