SPORTBACK

THE FUTURE HAS ARRIVED

Meet the all-new 2027 Mitsubishi Eclipse Sportback. Fully electric and unmistakably Mitsubishi, it combines head-turning design with impressive range, responsive performance and advanced technology. With an estimated range of 454 km, fast-charging capability and a driver-focused digital experience, it's designed to make going electric feel as exciting as it is effortless.

454 KM Estimated Range

35-Minute DC Fast Charging

28.6" Of Combined Digital Display Space

QUIET POWER.
INSTANT RESPONSE.

Electric performance changes the way driving feels. The Eclipse Sportback combines smooth, quiet acceleration with 214 horsepower and 261 lb.-ft. of instant torque. Powered by a 75 kWh drive battery, it responds quickly when you need it while providing the refined, effortless performance that makes every drive more rewarding.

214 HORSEPOWER

Strong electric power gives you confident acceleration for everyday driving and highway passing.

261 LB.-FT. OF TORQUE

Instant torque gives you immediate response off the line and quick acceleration when you need it.

75 kWh DRIVE BATTERY

Provides the energy behind responsive electric performance, with the capacity for everyday driving and beyond.

DRIVE IT YOUR WAY

Four selectable drive modes let you tailor the Eclipse Sportback's performance to match the way you want to drive.

PERSONAL
Tailor acceleration and deceleration to suit your driving style.

SPORT
Sharper response and stronger power delivery for a more engaging drive.

STANDARD
A balanced blend of responsiveness and efficiency for everyday driving.

ECO
Optimizes performance to prioritize efficiency and maximize range.

GO ELECTRIC.
GO WITH CONFIDENCE.

GET MORE FROM EVERY DRIVE

e-Step One-Pedal Driving
Ease off the accelerator to slow the vehicle and recover energy, reducing the need to switch between pedals in stop-and-go traffic.

Regenerative Braking Paddle Shifters
Use the steering-wheel-mounted paddle shifters to fine-tune regenerative braking and choose the level of deceleration that feels right for the drive.

With the range to take on everyday commutes, weekend plans and plenty in between, the Eclipse Sportback is ready to go when you are. Flexible charging options make it easy to power up at home or on the road, while DC fast charging and intelligent battery pre-conditioning help you spend less time thinking about charging and more time driving.

Go Farther Between Charges

An estimated 454 km of range gives you the freedom to take on more of your day between charges.

Less Time Plugged In

DC fast charging can take the battery from 10% to 80% in approximately 35 minutes, helping get you back on the road sooner.

Flexible Charging Options

Charge at home with Level 1 or Level 2 charging or use the NACS port for convenient DC fast charging on the road.

COMFORT COMES NATURALLY

Step inside and the Eclipse Sportback makes smart use of every inch. Its spacious five-passenger cabin combines generous rear-seat room with a flat rear floor, flexible seating and thoughtful storage. Add comfort and convenience for both rows, and you have an interior designed to make everyone feel at home, wherever the road takes you.

More Space To Stretch Out
A flat rear floor eliminates the centre hump, giving rear passengers more usable foot space and generous room to get comfortable.

Warmth Where It Matters
Heated front and rear seats, a heated steering wheel and an efficient heat pump keep you comfortable on cold Canadian drives while helping conserve battery energy.

A Place For Everything
Flexible 60/40 split-folding rear seats, dual gloveboxes and a divide-and-hide cargo partition help keep everyday essentials organized and out of sight. A wireless smartphone charger keeps compatible devices powered without another cable.

Let The Outside In
The available fixed panoramic roof* brings more light into the cabin, while its e-dimming sunshade lets you adjust the amount at the touch of a button. Its slim design also helps maximize rear-seat headroom.
*Available with Tech Package.

CONNECTED
TO WHAT MATTERS

Technology in the Eclipse Sportback is designed to feel like a natural part of the drive. Dual 14.3" digital displays put information and entertainment within easy view, while available features with Google built-in and Mitsubishi Connect† keep essential connectivity right at hand. With wireless Android Auto™[1] and Apple CarPlay®[2], you can access your favourite apps, music, messages and more through the Eclipse Sportback's display, without plugging in your phone.

Works with Apple CarPlay

Works with Android Auto

Bluetooth®

USB

Your Drive. In Full View.
A 14.3" full digital driver display and 14.3" display audio system create a seamless digital experience, putting driving information, navigation, entertainment and vehicle controls right where you need them.

Google built-in
With Google Gemini, Google Maps and Google Play built right in, everything you need is ready without connecting your phone. Get live traffic updates, download your favourite apps and speak naturally to adjust climate, control media or find your next stop, all while keeping your focus on the road.

Sound, Personalized
The available 10-speaker BOSE® audio system* delivers premium sound throughout the cabin, with headrest-mounted speakers that can direct phone calls to the driver while passengers keep enjoying their own listening experience.
*Available with Tech Package.

Always Within Reach - Mitsubishi Connect†
Stay connected to your Eclipse Sportback through your smartphone. Check battery and charging status, access select vehicle functions remotely and connect with emergency or roadside assistance when you need it.

SAFETY THAT LOOKS OUT FOR YOU

The Eclipse Sportback surrounds you with advanced safety and driver-assistance technologies that add awareness and support on every drive. From helping you stay in position on the road to giving you a better view of what's around you, these systems are designed to help you anticipate what comes next.

Support For The Road Ahead
MI-PILOT Assist[1]
MI-PILOT Assist combines Adaptive Cruise Control (ACC) with Stop & Go[1], Lane Keep Assist[1] and Traffic Sign Recognition[1] to assist you through changing traffic and road conditions.

See More Around You
3D Multi Around View Camera System[1]
Get a more complete view around your Eclipse Sportback when parking and manoeuvring, with multiple camera perspectives including an innovative Invisible Hood View.

Protection From Every Side
Comprehensive Airbag System
Front, knee, side-impact and side-curtain airbags provide comprehensive occupant protection throughout the cabin when it matters most.

Extra Awareness In Reverse
Rear Safety Assist
Rear Cross Traffic Alert[1] can warn you of approaching vehicles when reversing, while Rear Automatic Emergency Braking[1] can provide additional support when an obstacle is detected behind you.
